

CLIENT: **EDGE GROVE SCHOOL TRUST LTD**
VALUE: **£265,000**
CONTRACT PERIOD: **13 WEEKS**

Edge Grove, founded in 1935, is a leading independent Prep School for boys and girls aged 3-13 in Aldenham, Hertfordshire.

This scheme, which was completed by our specialist Special Works Division over a fast track 13 week period involved the conversion of a vacant former farmhouse, near the main school site, into a new preschool day nursery for 3 and 4 year olds.

Internal structural alterations and refurbishment works included the removal of existing walls, the erection of new stud partitions and the forming of new openings in the existing structure. Now complete the refreshed layout features two large open plan playrooms, a science/kitchen space, I.T. area, staff room and toilets on the ground floor with an additional third playroom and toilets on the first floor.

The spacious, light teaching spaces have varying learning areas including dedicated story telling and reading corners. Fitted furniture across the two floors was all made bespoke, to the clients exacting specification, by our specialist appointed joinery subcontractors. The most impressive of which is a large feature piece on the ground floor which contains book shelves, storage space and three circular, LED backlit reading nooks for children to sit within.

Additional works included new sash windows, painting of the external timber cladding, new electrical and mechanical installations, fitting of a new staircase with glazed balustrade and the creation of a external soft play area with extended canopy.
